

Karl Palsson – Curriculum Vitae

Personal Details

Address: Tryggvagata 14, Reykjavik 101, Iceland

Phone: +354 822 2595 (gsm) Email: jobhunt@tweak.net.au

Kennitala: 070779-3239

I am an Australian Citizen, born 7-7-1979. I am also an Icelandic Citizen (Work authorization throughout EEA)

I speak English, and am learning Icelandic

Objectives

Looking to use my skills to help a quality team deliver quality products.

Why you should choose me

I'm solutions focused, but planning for the future is a critical aspect of any solution. I don't have a technology religion; I use whatever tools are best suited for the job at hand. Reliability, interoperability, and usability are some of the foundations of my software development practices. I pick up new skills quickly, and can teach others not long after that. I am more than just a programmer.

Professional Experience

Software engineer

May 2005 – Jul 2007 – *Industria – Reykjavik, Iceland*

Worked in a team developing complete OSS/BSS systems for multiplay service providers. Process driven, service oriented management, right through to billing data collection and correlation. Design, implementation, development and training, using agile practices. Quality control work, both testing individually and with test teams and customer support. Developed custom tools to reduce workload of the entire team.

Software engineer

Jan 2001 – Jul 2004 - *Cisco Systems – San Jose, CA, USA*

Worked as an active member of a busy team, developing software for switches and routers. Wrote and reviewed architecture, implementation and test documentation, working with marketing and managerial staff to determine software requirements. Quality control work with test teams and customer support. Developed custom tools to reduce workload of the entire team.

Hardware/Software engineer

Dec 1999 – Jan 2000 – *Stallion Technologies – Brisbane, Australia*

Designed and implemented a debugging toolkit still in use today by the Stallion test teams for diagnosing hardware errors.

Education

Bachelor Of Engineering (First Class Honours - Computer Systems and Electrical Engineering) - University of Queensland, Australia 2000

Personal Interests

My interests include photography, hiking, home brewing, travel, and music

Availability for Work

Now, Part time, 20 hours per week
